

To whom it may concern

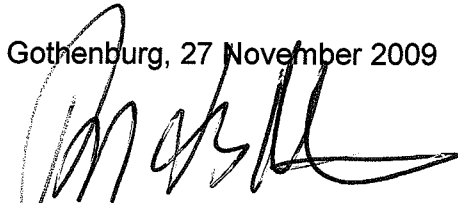

## **Battery Directive Statement**

Ascom (Sweden) AB hereby ensures that our provided batteries fulfil the requirements of Directive 2006/66/EC (the 'Battery Directive'), Le.:

- No button cells contain more than 2 % mercury by weight;
- No other batteries or accumulators contain more than 0,0005 % of mercury by weight; and
- No batteries or accumulators contain more than 0,002 % cadmium by weight.

We also acknowledge our obligation to be a registered producer (as defined by the directive) and will on 31 March 2010 start reporting quantities of sold and collected batteries, as well as report compliance with the above mentioned directive on labelling of batteries, collection schemes and information provided to end-users.

Gothenburg, 27 November 2009

Anders Melin  
Manager Director, Ascom (Sweden) AB
